TELEGRAPHIC.

Special By Telegraph to The Times.

Within the past ten days the Mahdi's forces have been twice defeated, with heavy loss, by Gen. Stewart. In the first engagement the rebel forces numbered 10,000, while those of Gen. Stewart only 1,500. The rebels lost 800 men and the English 85. Col. Burnaby was killed.

The second battle was the more decisive and important of the campaign, for by it communication has been effected with Gen. Gordon, and Kartoum is safe. El Mahdi left 2,000 killed and wounded on the field; the British had only 18 killed and 93 wounded, amongst the former was Herbert the London *Post* correspondent. Gen. Stewart was dangerously wounded at the commencement of the battle.

Two dynamite explosions occurred simultaneously in London, last Saturday, in the parliament buildings. The damage was heavy, estimated loss of £100,000. Two policemen were badly injured and several other persons badly hurt. A man named Cunningham has been arrested; he lived five years in America, and suspicion is strong against him. The outrage has been denounced in England and America.

Three hundred Canadian voyageurs leave Alexandria for home on the 5th of February.

Dominion Parliament.

By Special Telegraph.

The Dominion parliament opened yesterday with the usual ceremonies.

The speech from the throne congratulates the country upon an abundant harvest and general good condition. Points to the flow of population in Manitoba and the North-West, although impaired by various and unexpected causes. Instances the testimony of members of the British Association and other visitors to the North-West last summer, as to the well-being, contentment and hopefulness of settlers.

A bill is promised for the representation of the people in parliament. Reference is made to the following: the provisional arrangement with Manitoba; the Chinese question; Bankruptcy Law; Hudson's Bay navigation; Antwerp exposition; Insurance Act of 1877; Civil Service Act; law relating to contagious diseases among cattle and one relating to the N. W. M. Police.

Early measures are to be taken for securing a census of population in the North-West Territories.

The following paragraph also appears:—necessity of encouraging speedy construction of lines of railway, through the North-West Territories, has pressed itself on my government, and you will be asked to aid railway enterprises by liberal grants.

Taschereau, of Quebec, and Townsend, who succeeds Sir Chas. Tupper as member for Cumberland, N. S. will move the address.

After the adjournment Sir John A. Macdonald unveiled the Cartier statue, in Parliament Square.

On the 28th inst. John George Kennedy was charged, before Capt. Young, with unlawfully deserting from his employers, Messrs. O. E. Hughes & Co. at Pelican Narrows. The prisoner was convicted and in default of paying $30 and $7 50 costs, was sent to jail for a month.

Mr John Neilson appeared before O. E. Hughes Esq. J. P. to answer the complaint of Sergt. Loscomb of having a glandered mare in his possession. Mr. Ramsay proved the case, and the magistrate granted a stay of proceedings in the case, upon the defendant agreeing to destroy the animal forthwith.

CHIT-CHAT LOCALS.

Gathered by our Reporters.

Freighters wanted at O. E. Hughes & Co's.

Just received at Clark's Drug Store, St Jacob's Oil and Thomas' Eclectric Oil.

Stewart Bros. have on hand about 400 pounds of butter, by the best makers in the district.

Const. G. Boles, has taken over charge of the stores of the N. W. M. Police at this post, from Corp Niven.

J. M. Campbell received this week a fresh supply of Winnipeg flour; also a large addition to his general store stock.

The members of the band are devoting their spare time to the preparations for their concert, which takes place some time next month.

If you want a good, cheap pair of bobsleighs you can't do better than give Wm. Gordon, Blacksmith, a call soon, as he has only one pair left.

Use Clark's Vegetable Sugar Coated anti-Bilious Liver Pills. For headache, biliousness, dizziness, constipation and sallow skin. 25 cents per box.

Mr. Shannon left for Winnipeg yesterday for the purpose of selecting a large and complete stock of boots, shoes, etc. for the spring trade of his firm.

We understand that glanders is very prevalent in this district, and trust that our Council will pay some attention to the matter although we can hardly expect it, as it would involve the outlay of a little cash.

Another of the legal profession has been added to the citizens of our town. Mr. S. Brewster has opened an office in the Medical Hall building, where he is ready to take up and plead the cause of impending litigants.

Those who want a good Condition Powder for animals reduced by freighting or otherwise are advised to try the article prepared by T. S. Jackson at the Medical Hall. It contains no antimony or other injurious ingredient, and, while it costs less than half the price of the imported preparations, will give better satisfaction.

Goschen has just escaped what might have been a very sad catastrophe. Fire was discovered in the boarding house kept by Wm. Scanlon, where lies Geo. Love with a broken leg; if it had not been for the timely aid, life and property would have been in great danger. As it was no damage was done except the tearing down of a few yards of lathing.

The recount of votes for the election of school trustees, took place at the school house on the 24th inst., before O. E. Hughes and Capt. Young. J. P's. Some discussion took place as to the legality of persons voting three times for the same candidate. The ordinance being rather vague, but in the absence of any formal protest, Messrs Macarthur, Stewart and Macdonald were declared duly elected, and certificates granted accordingly.

COMMUNICATIONS.

THE SKATING RACE.

To the Editor of The Times

SIR,—Allow me to correct an error in your late report of the skating race, in which you state that I deserve great credit for the manner in which I endeavored to cover the distance. Now, sir, allow me to state that I had not the presumption to imagine that I had the ability to gain one of the valuable and much coveted prizes awarded by the curling club. I was simply skating for my own amusement, and my score was eight miles and nine laps, not eight miles and eight laps as you state. I was just two laps behind Mr. Tait, who seems to have been competing for the three valuable prizes. Thanking you for the kind manner in which you coupled my name with that of a gentleman who did not cover half the distance I did,

I. O. DAVIS.

In reference to Mr. Davis' letter, we acknowledge having made an error in his score. It should have been 8 miles and 9 laps. As to the sarca sm contained in the balance of it, we let it go for what it is worth.

FRIDAY, JANUARY 30, 1885.

Another victim of tea-totalism:—Chief Running Wolf recently backed his squaw to drink more tea than any other squaw in camp. The challenge was taken up by another Chief on behalf of his squaw. Chief Running Wolf's squaw was five mugs ahead, when in the act of raising the fifty seventh to her lips she died. Now it is evident that had the liquor been intoxicating that could never have happened, as the deceased lady must have become insensible before doing herself any harm.

Some provisions of the Canadian Fisheries Act have been extended to Manitoba and the North-West relating to white fish and speckled trout. It seems curious that this should not be advertised more widely as it will affect a vast number of all classes in the Territories, who, as a rule, seem to know nothing of the matter. That kind of change is rather too sweeping in its application to a country like this, nor do we think the people of this district, many of whom can hardly keep body and soul together will stand any interference with what to many is absolutely a necessary of life, viz:—their winter supply of white fish.

The people of Prince Albert have always been very liberal, especially to charity. It would be a great act of charity for some person to take a tour of inspection among the indians across the river, and see in what state they are really in. They have never been so hard up. Some applied to Inspector Moffat for supplies, but he has no authority to feed them. The Indians are a great nuisance coming around our houses as they do, but it would not say much for the people of this town if they sit quietly by and know that within a radius of half a mile their fellow man is dying of starvation.

FLOUR FOR THE INDIANS.

We observe from the Winnipeg papers that the government is calling for tenders for the supply of flour for the Indians. Our leading journal states that "millers in the Territories will *also* be allowed to tender," while another has it that "millers in the Territories will *only* be allowed to tender." There is no small difference between the meanings conveyed according to which of the two little words may be correct, but we should certainly hope that instead of the permission to the North-West millers to tender along with their brethren in the East being granted as a sort of favor, their just claim to be the only suppliers has been recognized. Of course this matter is one which affects not only the milling interests but those of the settlers who produce the grain, and the traders who take that grain in exchange for their goods, in fact the interests of the whole people, and it is hardly conceivable that a claim possessing such obvious justice can have been overlooked. There are communities of farmers in parts of the Territories whose very existence depends upon the market for their produce formed by the requirements of the Police and Indians; and the idea, that a government, whose first duty is to foster in every possible way those settlers, who at the cost of the severest toil and hardship to themselves and families are reclaiming and making valuable this vast wilderness, should for the sake of some miserable saving of expenditure in these departments, ruin them, is too preposterous for serious consideration. What we more particularly wish to express is the hope that in calling for these tenders, there may be no unnecessarily high and therefore vexatious standard imposed. It should not be forgotten that while the Police and Indians too are entitled to a good and wholesome flour for which the government is both able and willing to pay—the machinery of the millers in the Territories although costing them far more than that of those below, cannot be expected to turn out the same superfine quality of flour. As a matter of fact the highly sifted flour, however much it may improve the appearance of the loaf or of pastry as required in the shops of cities, is by no means advised to the homely but most wholesome bannock of the Territories, and in all probability would excite suspicion of containing "bad medicine" in the mind of the Red man. Millers men in Europe, will we presume on this continent too, are agreed that the usual milling process in vogue in civilization, succeeds in sifting out the most nutritious part of the grain, and the flour turned out by our millers whether better than that below or not, if good enough for the settlers themselves must be simply so for the Indians. Should an impossible standard be set up, no doubt millers will make the less unfavorable the contracts, trusting that it will not be rigidly adhered to. Should they do this, and then be disappointed in their hope, and that flour is condemned, it will go forth to the world that in our vaunted Territories we cannot produce flour fit for food for the Indians. It is far better that this should be considered now, than after the mischief has been done.

Three young men of respectable parentage, named W. Brown, R. Brown and R. A. Walker, of Ottawa, were arrested early this morning, charged with being the perpetrators of burglaries that have occurred in the city recently.

Robert Alders, ex-teller of the Windsor branch of the Canadian Bank of Commerce, has been arrested for embezzlement.

It is rumored that Chapleau, sheriff of the North West Territories will succeed the late F. H Ennis as secretary of public works, and it is said the Government will not increase the North West Mounted Police.

A Canadian Pacific train drawn by two locomotives ran into a train of flat cars 25 miles from Montreal. The locomotives were wrecked, the passenger cars derailed, and the occupants of the cars badly shaken up. The loss to the company is very heavy.

The ice palace and the condora at Montreal are being pushed on rapidly in readiness for the opening day.

The Canadian Pacific Railway say a plot is on foot in New York to bear their securities.

Healing Piles—Symptoms and Cure.

The symptoms are moisture, like perspiration, intense itching, increased by scratching; very distressing, particularly at night; seems as if pin-worms were crawling in and about the rectum; the private parts are sometimes affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, safe cure. Also for Tetter, Itch, Salt-Rheum, Scald Head, Erysipelas, Barber's Itch, blotches, all scaly, crusty Skin Diseases. Box, by mail, 50 cts.; 3 for $1.25. Address, DR. SWAYNE & SON, Phila., Pa. A BIG COAL FIELD.

Professor Newton, a practical American geologist, who has been prospecting in this country for a number of months, and who discovered the immense coal mine at Crowfoot Crossing, arrived in the city last night. Mr Pgan introduced a reporter to the professor, this morning, and the latter gave some particulars regarding the coal.

"The coal," said the professor, shows the least percentage of water of any coal west of Maryland. As to its quality, it will compare with that of any coal in the Western States. So far as steam is concerned, the coal is exactly adapted for that purpose, and for parlor purposes it cannot be surpassed. I tested it and found no sulphur in it, so that any quantity could be stowed in sheds without any danger of igniting. You know, great trouble is experienced with some coal in consequence of its aptness to ignite, charged as it is with sulphur. Such coal as was discovered out at the Crowfoot Crossing, would be worth $10,000 an acre in the Western States. There is sufficient coal out there to keep the whole North-West

WARM FOR A MILLION YEARS.

I consider there is enough coal there to last for all time to come. The seam is over five feet thick, which is much larger than almost any seam in United States. The shaft is 135 feet deep and eight feet in diameter. Over the vein is a stratum of slate more than a foot thick. This will make an excellent roof for the mine. There are several other seams encountered on the way down, but none of them are so good and none near so thick as the bottom seam."

The proprietor is confident that if the mines were developed the coal would be used to supply Dakota, Montana and Minnesota. He thinks it would soon supplant all other coal in St Paul. While sinking the shaft for the coal a vein of iron stone four feet thick, of a very rich character was struck. Professor Newton says it possesses untold wealth, and if its richness were made known, a sensation among capitalists would be created.

THE SCORING FOR THE RACE.

To the Editor of the Times.

SIR,—I am surprised that any man would have the audacity to go to your office and falsify the score of some of the men that took part in the ten mile skating race on the 22nd inst. I am also surprised at you for changing the score without the consent of the scorers, judges and all parties interested. If the curling club are going to allow a few vain honor seekers score through influence, the sooner the public knew it the better. Such conduct would not be tolerated among savages, much less in a civilized community. When time was called, Mr. F. Cherry's score was nine miles and five laps, not eight miles and fourteen laps, as stated in your paper of the 23rd inst. Every man is entitled to his rights; so is Mr. Cherry entitled to nine miles and five laps in the last race.

Yours, &c.,
G. C. MacLEOD.
Scorer.

Mr. MacLeod seems to be so easily surprised, and as we do not wish to surprise him any more, we will content ourselves by merely stating that we received the score from a gentleman to whom we would not care to impute the charge of falsifying.

PUBLIC NOTICE.

All parties are hereby notified that the undersigned committee have petitioned the Lieutenant-Governor for the erection of a

"The Kinistino Protestant Public School," within the following limits, that is to say:—

CARD OF THANKS.

During the whole time we have been in business we never have had a more successful holiday season than the one just past. Our sales have been large and of a substantial character, and we feel sure that we have enrolled many new names as regular customers. Such a state of affairs is most gratifying to us, showing as it does that our continued efforts to provide the best of everything in our line at the least possible cost have been so generally appreciated.

To all who have patronized us, not only during the holiday season but also throughout the whole of 1884, we beg to tender our sincere thanks and to intimate to them that our stock of Dry Goods, Clothing Furs and Groceries is still fresh, well selected and extremely varied, and in order to clear up before spring trade every department has been overhauled and articles marked at clearing sale prices.

THE MAIL ROBBER.

CHICAGO, Jan., 16.—A well known officer stepped on the floor of the Open Board of Trade yesterday and arrested a well-known operator, A. B. Campbell, a young man 36 years old, who claims to be a nephew of Sir Alexander Campbell, Minister of Justice of Canada. He is wanted for complicity in a series of frauds which he, in connection with others, committed while he was in the railway mail service of the Dominion Government. It was known that there were "fences" in St. Paul, Toronto and other places where a good deal of booty was disposed of, but no headway towards unearthing the identity of these places was made by detectives. As the robberies grew day by day and nothing was done toward checking them, the Canadian officials became discouraged, and the people grew indignant.

A. B. CAMPBELL

is one of the men interested in the thefts. Last December a Canadian post office official came to Chicago with a letter of introduction to Captain Stewart, and after stating the object of his mission, requested the captain to take the case in hand and try to break up the gang which was robbing the Canadian mails. The disappearance of young Campbell from his route on the Canadian Pacific Railway between Emerson and Winnipeg, where he had been running for some time, was also related, and on this the official based his search, which has ended with such flattering results to himself. He watched Campbell's habits around the city, and found he was speculating, gambling and consequently loosing money with a recklessness which would have put a millionaire to shame. When arrested on Wednesday afternoon he was thoroughly searched and

ABOUT $18,000

in bank bills, chiefly of the Bank of Montreal, was found in his pockets. He confessed that he had purloined all this from the mail pouches, and after a little persuasion he made a full confession in writing of all his misdeeds. He explained that most of the money which he took from the mail bag was mostly in the form of cancelled notes of the Bank of Montreal. All of this which came in Campbell's way he kept; and when he got to Chicago made the acquaintance of some friends who showed him how to

ERASE THE MARKS

from the bank bills with acid. In a few days with the aid of the acids, he found himself in possession of a large sum of money, which he readily exchanged at the Bank of Montreal for face value for American legal tender. He has been a constant habitue of gambling houses and bucket shops, and squandered a fair amount of the money he brought from Canada. A short time ago he lost $600 at a Randolph Street faro game, and as he was not entirely satisfied as to the game being fair, he induced a lawyer to recover it for him. The latter succeeded in making the proprietor of the house pay over $300, and of this amount he himself kept $150. Since his arrival in the city last December, Campbell has been boarding on the East Side. He made the acquaintance of quite a number of young men in the vicinity, and since his arrest they have been very much worried about him.

TAKEN TO CANADA.

Canadian officials arrived in the city to-day with the papers necessary to take him back to Canada. The case is not very fully developed, however a number of additional arrests will have to be made before all the robbers can be punished. On this account everybody connected with the case maintained the strictest secrecy, and nothing can be learned from them either by direct enquiry or otherwise. Campbell is well educated and highly connected in Canada. He was disposed to return to Canada without making trouble, and was taken back to the Dominion to-day.—*Free Press, Winnipeg.*

CURLIANA.

On Saturday last the members of the Argyle Curling Club played an interesting match on their rink—Canada vs. Old Country—which resulted in a victory for the Canadians by 11 shots.

CANADIANS.	OLD COUNTRY.
NO. 1 RINK.	
G. V. Atkinson.	C. Woodman.
W. R. Markley.	J. D. Wilson.
J. R. McPhail.	G. A. Miller.
H. B. Garvin, skip. 20	Macdowall, skip. 8
NO. 2 RINK.	
H. McDougall.	Jos. Courtney.
J. McKenzie.	R. Deacon.
M. J. Hutchart.	W. Johnson.
J. D. Snell, skip. 10	Bratnober, skip. 17

In favor of Canadians, 11 shots.

On Thursday the return match was played between the Argyle and Saskatchewan Curling Clubs, on the rink of the former, and resulted in favor of the Saskatchewan by one shot. The game stood:—

ARGYLE.	SASKATCHEWAN.
No. 1 Rink.	
Atkinson.	Duck.
Butchart.	McKay.
McPhail.	Sinclair.
Snell, skip. 15	Northgraves, skip. 14
No. 2 Rink.	
Courtney.	Wymerskirch.
Miller.	Johnson.
Garvin.	Neilson.
Bratnober, skip. 14	Brown, skip. 19

Majority for Saskatchewan, 1 shot.

On conclusion of the match it was decided to play the conquering game the following day, Friday, which was done.

This game was an interesting and exciting one from start to finish, and when twenty one ends had been played the score was found to be a tie. Accordingly another end was played to decide the game, when the Argyle's scored three shots, thus winning the match. The Argyle's, who were justly feeling very much elated over their victory, drove off to their club room where they spent a jolly time in speech making, recitations and songs till a late hour in the evening, when they broke up with an old-time "stag" dance round the kitchen stove.

BIBLE COMPETITION.

The publisher of the popular humerous work entitled "Our Joshua as a Reporter," anxious to dispose of the limited number of copies on hand has offered a special inducement. The person sending the first correct answer to the following Bible question before the 15th Jan., 1885, will receive TEN DOLLARS in gold ($10 in Gold), the persons sending the next five correct answers, one dollar each, and the five persons sending the last correct answers one dollar each; in all eleven rewards.

Each person competing must enclose twenty-five cents with their answer and will receive by return mail a copy of "Our Joshua as a Reporter," a humorous work of 160 pages of which the Provincial and United States press have spoken most favorable. Name this paper.

QUESTION—Multiply the number of elders that John saw in his revelation by the number of years Satan was bound, divide by the number of gates in the New Jerusalem, add number of shekels of silver taken by Achan from Jericho, subtract the number of false prophets killed on Mount Carmel, divide by the number of Moses' sons, and subtract Eli's age at his death.

The correct answer and names of successful competitors will be published in the NEW BRUNSWICK REPORTER a copy of which will be forwarded. Address—HERMAN H. PITTS, Manager "N. B. Reporter," Fredericton, N. B. P. O. box 209.

ESTRAY HORSE.

Under and by virtue of Ordinance No. 9 of 1883 of the North West Territories, it is notified that a Buckskin pony, two years old, glaze face near fore and two hind legs white, branded "D" on off shoulder, black mane and tail, is in possession of the N. W. M. Police at Carlton.

The rightful owner can have same by proving property and paying necessary expenses.
